#### **OBIETTIVI FORMATIVI DEL CORSO**

This course aims to teach students the fundamental of strategic decision-making in organisations.

#### **RISULTATI DI APPRENDIMENTO ATTESI**

##### ***Knowledge and understanding***

Students are able to explain different theories and models of strategic decision-making and game theory.

##### ***Applying knowledge and understanding***

Students are able to transfer the knowledge and understanding they have acquired in this course to other fields of the social sciences. In addition, paradigmatic research designs are understood.

##### ***Making judgements***

Students learn to assess the usefulness of different decision-making approaches and different strategies for different problems in organisations.

##### ***Communication***

Students can present and discuss relevant literature sources. They are able to communicate with other forms of communication as well, for instance, writing summaries, visualisation of content, or reviewing papers.

##### ***Learning skills***

By a high share of individual assignments (together with feedback from teachers), students will be enabled to acquire all skills that are necessary to self-study further literature on the subject.
