RISULTATI DI APPRENDIMENTO ATTESI	- student will acquire capacity to understand and manage the regulatory strategies of international trade and the logics governing the drafting of an international contract - student will be able to analyze and understand the more common "boilerplate" clauses inserted in the international contract, and to draft templates of the most used international contracts types - student will learn to valuate risks(opportunities of internationalization of enterprise and to valuate the most appropriate contractual instrument to face with the international trade challenges - student will be able to discuss international trade issues in English language, and using proper legal English expressions - the case-method and the classroom exercises on practical issues will enhance the individual capacity toward problem-solving approach		
VALUTAZIONE DELL'APPRENDIMENTO	ONGOING WRITTEN TEST: divided into 4 or 6 open questions and/or a short essay; It aims at determining the possession of all the provided skills, capacity and expertise. Clear, defined and uniquely interpretable questions will allow both the autonomous formulation of the answer by the student and the comparability of the works by the teacher, in accordance with predetermined criteria for correction and the fact that this is not a test for comparative evaluation in the strict sense. The vote will be expressed in thirtieths according to the criteria pointed out below also for the oral examination. FINAL ORAL EXAM: The candidate must answer at least two/three questions posed orally, on all parts covered by the program, with reference to the recommended texts. Final assessment aims to evaluate whether the student has knowledge and understanding of the topics, has acquired jurisdiction to interpret and independent judgment. EVALUATION METHODS The result of the test will be considered: EXCELLENT (30-30 laude) if the student will show excellent knowledge of the topics, excellent property of language, good analytical capacity, and the ability to apply the knowledge to solve the problems submitted; VERY GOOD (26-29) if the student shows good mastery of the subject, full property of language and the ability to apply the knowledge to solve the problems submitted; GOOD (24-25) if the student will show to have basic knowledge of the main topics, fairly good property of language, limited ability to independently apply the knowledge for the solution of the problems submitted; MORE THAN SUFFICIENT (20-23) if the student will show not to have full mastery of the main arguments but a good understanding of the same, satisfactory property of language, lack of ability to independently apply the knowledge acquired; SUFFICIENT (18-19) where the student will show minimum basic knowledge of the main teaching and technical language issues, minimum ability to apply the knowledge of the contents of the topics covered in the teaching.
