

UNIVERSITÀ DEGLI STUDI DI PALERMO

DEPARTMENT	Scienze Psicologiche, Pedagogiche, dell'Esercizio Fisico e della Formazione		
ACADEMIC YEAR	2018/2019		
SECOND CYCLE (7TH LEVEL) COURSE	SCIENCE OF PREVENTIVE AND ADAPTED PHYSICAL ACTIVITY AND SPORT PERFORMANCE		
INTEGRATED COURSE	PLANNING OF PHYSICAL ACTIVITIES AT VARIOUS AGES AND IN METABOLIC DISORDERS - INTEGRATED COURSE		
CODE	19823		
MODULES	Yes		
NUMBER OF MODULES	2		
SCIENTIFIC SECTOR(S)	M-EDF/02, M-EDF/01		
HEAD PROFESSOR(S)	PALMA ANTONIO	Professore Ordinario	Univ. di PALERMO
OTHER PROFESSOR(S)	BIANCO ANTONINO	Professore Associato	Univ. di PALERMO
	PALMA ANTONIO	Professore Ordinario	Univ. di PALERMO
CREDITS	9		
PROPAEDEUTICAL SUBJECTS			
MUTUALIZATION			
YEAR	2		
TERM (SEMESTER)	1° semester		
ATTENDANCE	Not mandatory		
EVALUATION	Out of 30		
TEACHER OFFICE HOURS	<p>BIANCO ANTONINO Friday 10:00 13:00 Microsoft Teams - Codice: dou7bxj</p> <p>PALMA ANTONIO Tuesday 11:00 13:00 piattaforma teams prenotarsi mediante email: antonio.palma@unipa.it</p>		

DOCENTE: Prof. ANTONIO PALMA

PREREQUISITES	All students interested to this course must know as prerequisite the fundamentals of training periodization in sports and fitness activities and applied human anatomy and physiology with particular focus on on musculoskeletal system. The cardiovascular system knowledge is another fundamental prerequisite. Fundamentals of posture and biomechanics.
LEARNING OUTCOMES	Knowledge of fundamental of fitness. Comprehension of basic principles of training periodization and training programming in the filed of traditional fitness and group fitness filed, respectively, but with particular attention to the target population with metabolic syndrome. Ability to assess, plan and evaluate fitness programs regarding general population and people with metabolic syndrome. Ability to work in team environment and also with different professionals coming from other related disciplines
ASSESSMENT METHODS	The exam is an oral exam aimed at verifying the competences and skills to be acquired at the end of the course. The purpose of the questions is to verify knowledge of contents to be acquired at the end of the course, as well as analytical and expository skills. Knowledge check includes scrutiny of the capability to establish relationships between contents, theories, patterns and methodologies which have been an object of study during the course. As far as analytical skills are concerned, check will aim at verifying at least one of the following goals: - S\he can give judgements and opinions about the disciplinary contents - S\he can understand applications and/or implications of the disciplinary contents within the specific discipline of reference - S\he can set the disciplinary contents within the professional, technological and sociocultural setting of reference. The student will have to answer at least two\three questions in the oral form about aspects of the syllabus with reference to the suggested textbooks. The exam aims at verifying knowledge and understanding of topics, interpretative competence and autonomy of judgement of concrete cases. The passing grade threshold will be considered reached if the student shows to have acquired the topics of the specific subject matter and is able to solve specific concrete cases as well as to correctly convey knowledge with satisfactory expository skills. Below the above-mentioned threshold, the exam will be considered unsatisfactory. The more the student can interact with his\her examiner showing mastery of language, of the specific subject matter and ability to convey his\her knowledge of the topics of the specific field of reference, the more the assessment will be positive. The latter will be expressed by 18 to 30-30 with honours marks. A face to face interview will be provided to the students. A number of 3-4 questions will be administered according to the course topic and the learning outcomes. The assessment has a final grade included in the following range: 30-30 with honours (excellent), corresponding to 'excellent knowledge of topics, excellent use of language, good analytical skills, the student can implement his\her knowledge to solve the submitted issues'; 26-29 (very good), 'good mastery of topics, very good use of language, the student can implement his\her knowledge in order to solve the submitted issues'; 24-25 (good), corresponding to 'basic knowledge of the main topics, fair use of language, with moderate capability to independently implement knowledge to solve the submitted issues'; 21-23 (satisfactory), 's\he doesn't possess full mastery of the main teaching topics but s\he possesses knowledge of them, satisfactory use of language, poor capability to independently implement the acquired knowledge'; 18-20 (passing grade), 'very poor basic knowledge of both the main teaching topics and the technical language, no or very poor capability to independently implement the acquired knowlege'; unsatisfactory, 's\he doesn't possess an acceptable knowledge of the contents of the topics dealt with during the course'.
TEACHING METHODS	The course provide lectures, practical sessions and case studies. The course will include also work experience at gym.

MODULE
PHYSICAL EXERCISE PLANNING FOR THE VARIOUS AGES AND IN METABOLIC DISORDERS

COURSE ACTIVITY (Hrs)	52

EDUCATIONAL OBJECTIVES OF THE MODULE

Knowledge of fundamental of fitness. Comprehension of basic principles of training periodization and training programming in the field of traditional fitness and group fitness field, respectively, but with particular attention to the target population with metabolic syndrome. Ability to assess, plan and evaluate fitness programs regarding general population and people with metabolic syndrome. Ability to work in team environment and also with different professionals coming from other related disciplines.

SYLLABUS

Hrs	Frontal teaching
2	Course presentation.
4	What Is Fitness Training? Definitions and Implications in people with metabolic syndrome.
6	Basic principle of training periodization. Training sessions for people with metabolic syndrome
6	The metabolic syndrome Part I.
6	Le patologie cronico degenerative Parte II.
4	Microcycles, Macrocycles and Mesocycle.
6	Physical fitness assessment of people with metabolic syndrome.
6	Training protocols for people with diabetes
6	Training protocols for overweight people and/or people with hypertension.
6	Physical activity as a valid support to deal with obese patients.
6	Practical lessons: How to assess people through field tests
6	Practical lesson: How to use bodyweight and free weights in subjects with metabolic syndrome
6	Practical lesson part II: How to use bodyweight and free weights in subjects with metabolic syndrome
6	The importance of heart rate monitors, smart apps and daily activities monitors.

MODULE
MANAGEMENT OF PATIENTS WITH METABOLIC DISORDERS IN SPORTS AND PHYSICAL ACTIVITY

Prof. ANTONIO PALMA
