Ability to follow both second level master and specialized seminars on the agricultural and agrifood economics.</p>
ASSESSMENT METHODS	<p>Final assessment aims to evaluate whether the student has knowledge and understanding of the topics, if he has acquired interpretative competence and independence of judgment in concrete cases.</p> <p>Written test (even intermediate test for students attending classes) designed to verify whether the student has kept skills and disciplinary knowledge provided by the teaching (the test lasts about one hour); then short oral exam designed to verify, not only the knowledge acquired and the processing capacity, but also the possessing of an adequate display capacity.</p> <p>Written test includes 6 closed questions, 6 true / false questions, 3 open-ended questions. The score will be calculated as follows: +1 for each correct answer to closed questions; +2 for each correct answer to true / false questions; the score for each correct answer to open-ended questions is equal to a maximum of 4 points. Incorrect or no answer will be awarded a mark of 0.</p> <p>The assessment is expressed in thirtieths.</p> <p>The topics of the exams will be the issues supplied during the course and indicated in the program. Students will be then led to reflect on main issues about the management of an agrifood firm.</p>
EDUCATIONAL OBJECTIVES	The aim of the course is to provide a basis of technical, specialized, managerial knowledge on the operation of the business in general, and in particular the agrifood, pointing to the understanding of the organizational and operational logic of agribusinesses through the qualification of size of the enterprise system and the deepening of social dimension, organizational and institutional, financial-economic and competitive structures. In particular, the latter is aimed at outlining the strategic orientation and the process of implementation of firm strategies.
TEACHING METHODS	The teaching method provides, in addition to traditional lectures (44 hours), exercises to prepare for the written test, agrifood companies visits, classroom discussion of case studies and the presentation of management experiences by corporate witnesses selected on the base of their experience and skills.
